

JOB ADVERT

CIMERWA Plc is Rwanda's largest cement manufacturer with a capacity of 600,000tons of cement per year with PPC Ltd having 51% shareholding. The company Operates a dry process technology Plant in Muganza Sector, Rusizi District in Western Province. As part of its localization and optimization plans the Company is recruiting professionals to fully optimize its production capacity and hence cater to the country's growing demand for cement and that of the region.

CIMERWA Plc is looking for an experienced professional to fill the following vacant position.

Instrumentation Technician (1)

Key duties and responsibilities.

Reporting to the Instrumentation Engineer, your tasks will include but are not limited to the following:

- Devise, select, set up, and operate electronic instrumentation and related electromechanical or electrohydraulic apparatus used for operational and environmental testing of mechanical, structural, or electrical equipment, and translate test data for engineering personnel to formulate engineering design and evaluation decisions:
- Select, install, calibrate, and check sensing, telemetering, and recording instrumentation and circuitry, and develop specifications for nonstandard apparatus according to engineering data, characteristics of equipment under test, and capabilities of procurable test apparatus.
- Sketch and build or modify jigs, fixtures, instruments, and related apparatus, and verify dimensional and functional acceptability of devices fabricated by craft or technical personnel.
- Perform preventive and corrective maintenance of test apparatus and peripheral equipment.
- Install or direct technical personnel in the installation of a unit in a test chamber or another test facility.
- Operate test apparatus during test cycle to produce, regulate, and record effects of actual or simulated conditions, such as vibration, stress, temperature, humidity, pressure, altitude, and acceleration.
- Analyze and convert test data to usable form, using mathematical formulas, and prepare graphs and written reports to translate test results.
- Carry out zealously with loyalty and faithfulness all the entrusted duties and go wherever CIMERWA Plc needs his services;
- Do his/her utmost to use and keep safely the material given to him/her;
- Devote his/her time subject to the rules in force to the services of the employer;

- Abstain from disclosing any confidential information for the duration of the present contract and during the two years following its expiry;
- Accept all the rules and regulations governing labor in Rwanda;
- Not to carry out any activity or business competing or threatening the Employer's daily activities;
- Any other task related to his portfolio as it may be assigned by his line manager.

Education and experience requirements.

- At least diploma in Engineering (Electrical and Electronics, Process Control and Instrumentation or related field);
- One year relevant Experience;

Special Requirements.

- To be Rwandan by Nationality;
- Be able to work under pressure.
- Willing to work extended hours.

HOW TO APPLY:

Candidates interested in the above vacancy are required to submit their application documents together with copies of the degrees certificates, detailed curriculum vitae, and any other relevant certificates should be submitted at CIMERWA Plc head office at Kimihurura, Gasabo District, and western Province or at its liaison office at Bugarama, Rusizi and/or at Email: cimerwa@cimerwa.rw not later than **Thursday 29, September 2022**.

Note: Only successful candidates will be contacted.
